

AYTM

THE AYTM COLLECTION

Spring - Summer 2018

SPRING – SUMMER 2018

It is quite incredible to think that we now write 2018. It seems that time flies, but that is usually a sign that you are having fun and enjoying life. Bringing joy to your life is a big part of what we do, so for this season we introduce yet another collection of beautiful styles for the home. You will find exciting new designs and a new perspective on some familiar styles. We hope you will enjoy the collection, the spring and the summer.

Find your AYTM's...

Visually strong

Something as familiar and as simple as stripes can make a world of difference and can be presented in many ways through many materials. In both Curva and Vitreus, the stripes meet and crisscross to generate very unique patterns.

Bringing back the cocktail hour

*Taking a moment of relaxation,
resting your legs for a little while.
The Angui bar chair is the perfect
place to do so – and it is new for the
Spring – Summer season.*

Bringing new light

The Angui mirror has a simple elegant shape. The oval shape is accentuated by the pipe that frames the mirror. This season we introduce the mirror in gold, but be sure to create your very own style with the four other colours also available.

ANGUI MIRROR - P100

Shapely vitality

This season we introduce a new addition to the Spatia collection. Lovely flowerpots in the vibrant colours, complimenting the shape of the Spatia vases, will make plants stand out and look fresh. The variation in colours makes room for your individual style and taste.

Dramatic new look

The Solum tables are known for their elegance and have instantly become a favourite among stylists. Now we introduce Solum in all black with a marble base to add to the dramatic look.

SOLUM TABLE - P.109

A new love

Introducing a familiar style in a new colour is always a thrill. Amber is a colour that brings warmth and a lovely contrast to many other colours. New to this season are the Stilla rugs and pouf in both amber and bordeaux.

STILLA POUF - P.II2

TOTA LANTERN - P.71

Your choice

There is something very gratifying about discovering a new use for a design.

The Tota lantern was “just” a lantern, but we soon discovered its versatility; which began with cactus and succulents – we have now moved on to flowers - and it really works. Excited to see what the next idea will be.

Personal choices

Selecting smaller design items for the home is an artform that many have become masters at. It is our passion to give you unique designs that suit your lifestyle and that always pleases the eye.

Silver – pure and cool

*Watering your plants in style is not just for
the keen Gardener. It is for all who loves
the elegance of a Vivero watering can.*

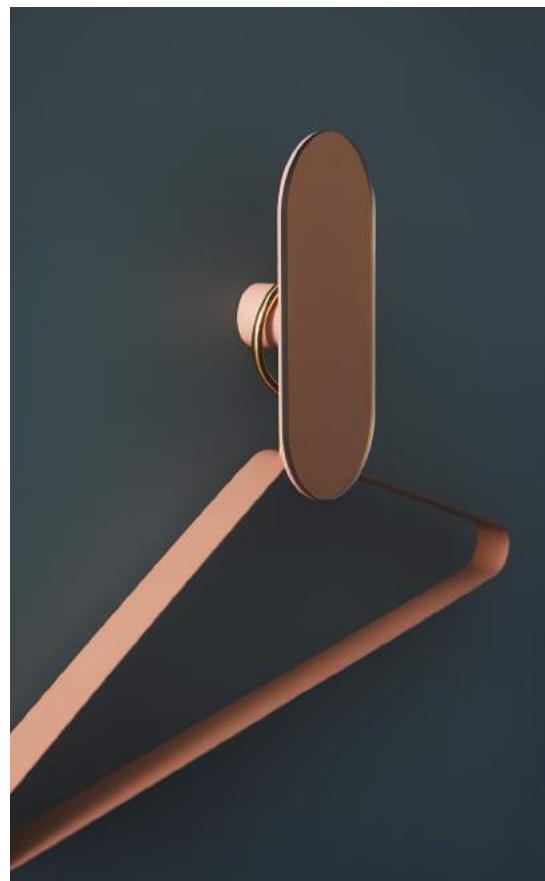

Gold – warming glow

A watering can actually has the ability to become a true showstopper. This one you will not want to hide away in a cupboard.

VIVERO WATERING CAN - P.64

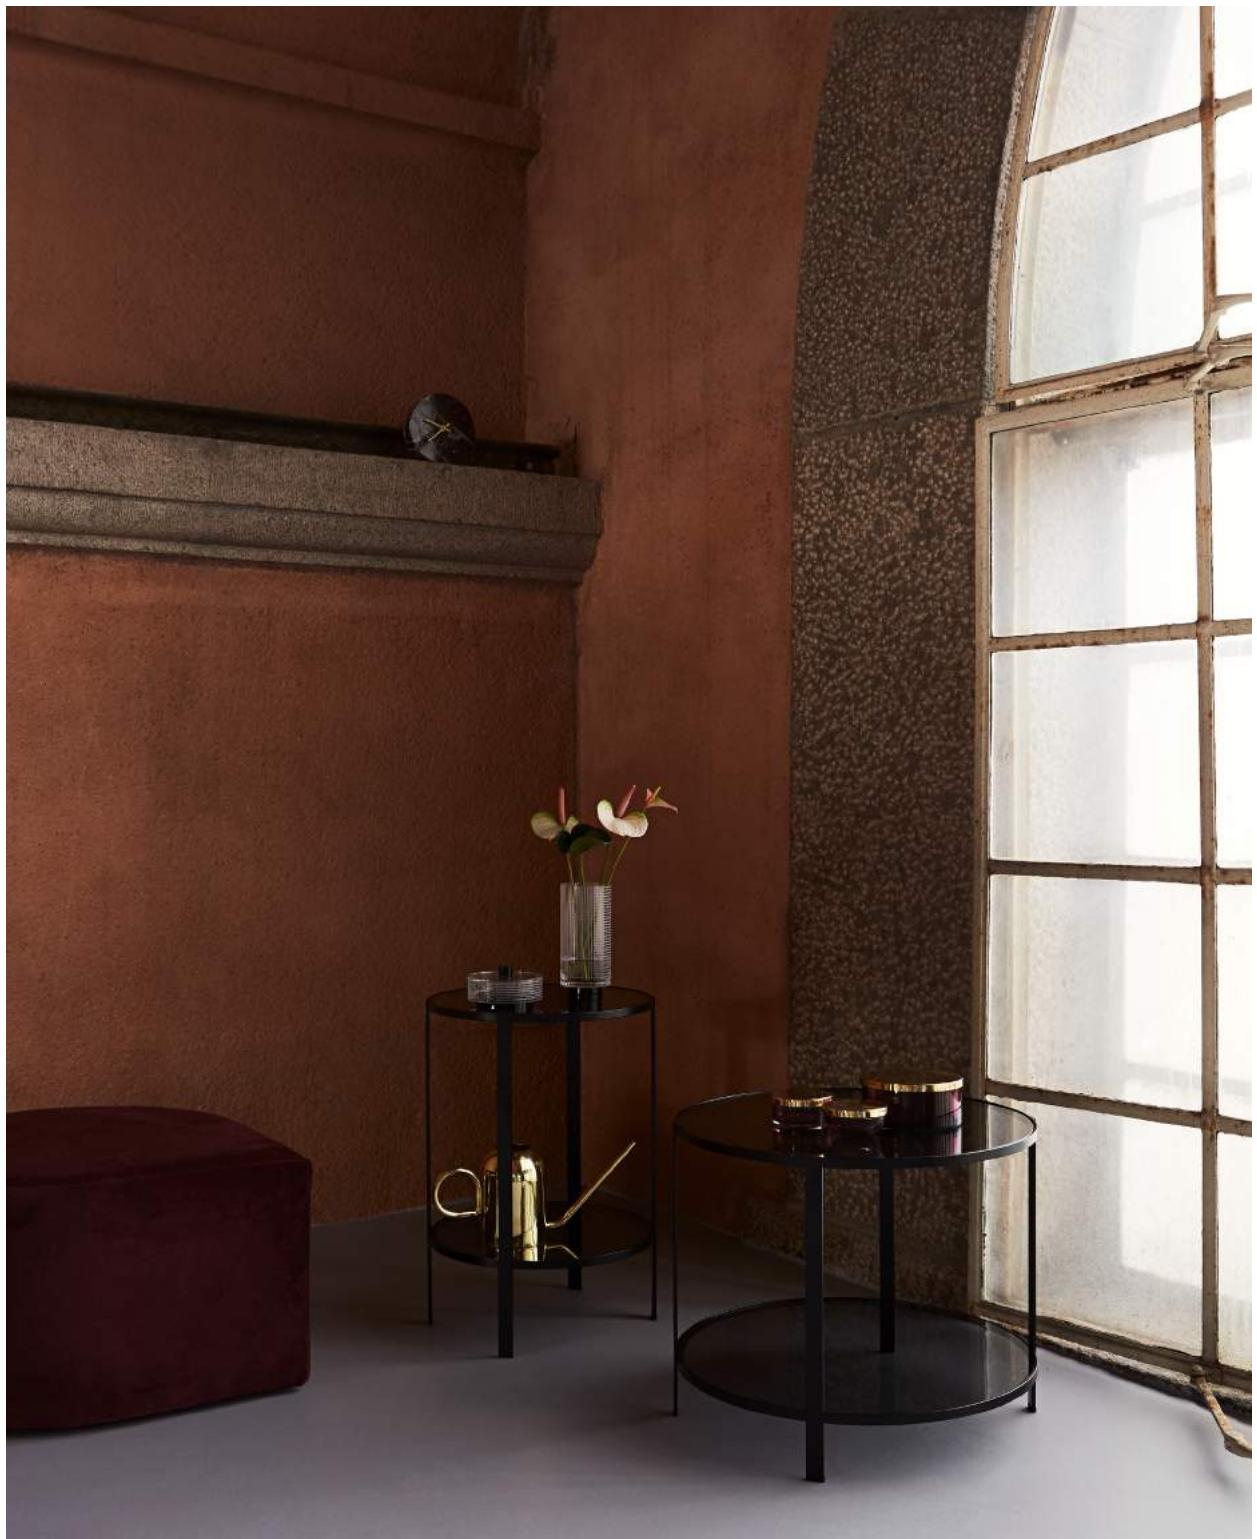

Making an entrance

An entrance or a hall is the first thing you meet when you enter a home. Why not be met by impactful designs? The two new additions to the Angui collection are both impactful and practical. Use the Vestis hanger for coats and maybe even include a few Ovali hooks for decoration.

Spring sensations

Spring always feels like a new beginning, so it is a good time to make some changes around the home. It does not have to be major changes, simply adding a few new pieces and moving things to a new place can make a big difference. Placing lanterns on a terrace can make the days longer and filling a vase with fresh flowers will make summer come even faster. It is our pleasure to present you with the designs, that each season give you that possibility to make those changes.

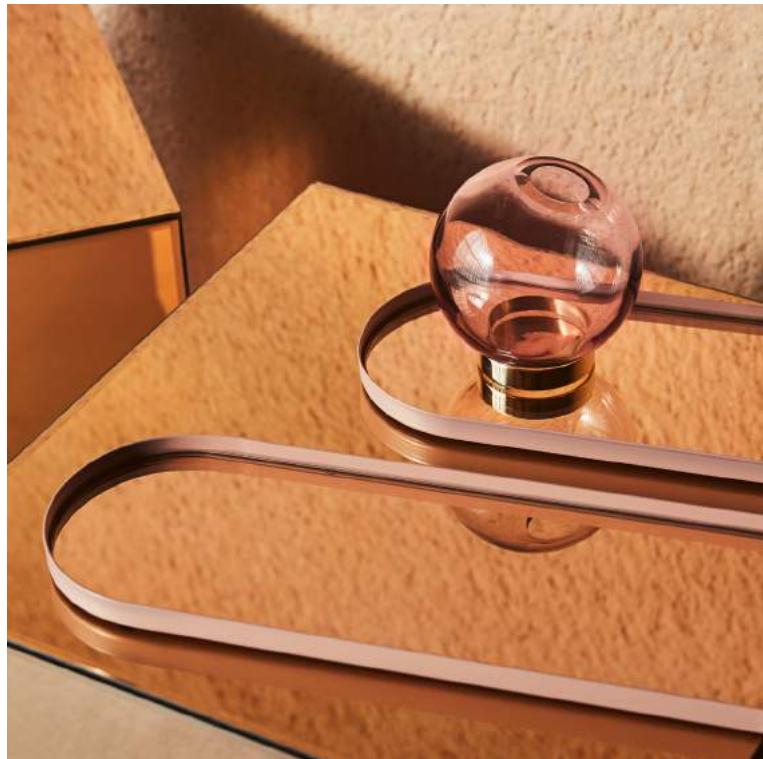

FUMI TABLES - P.II0

Your unique pattern

A home is all about individual style and expression. Combining pieces to create that style is easily done with the multiple shapes, sizes and colours of the Unity trays. New to this season are the wooden Unity trays in black.

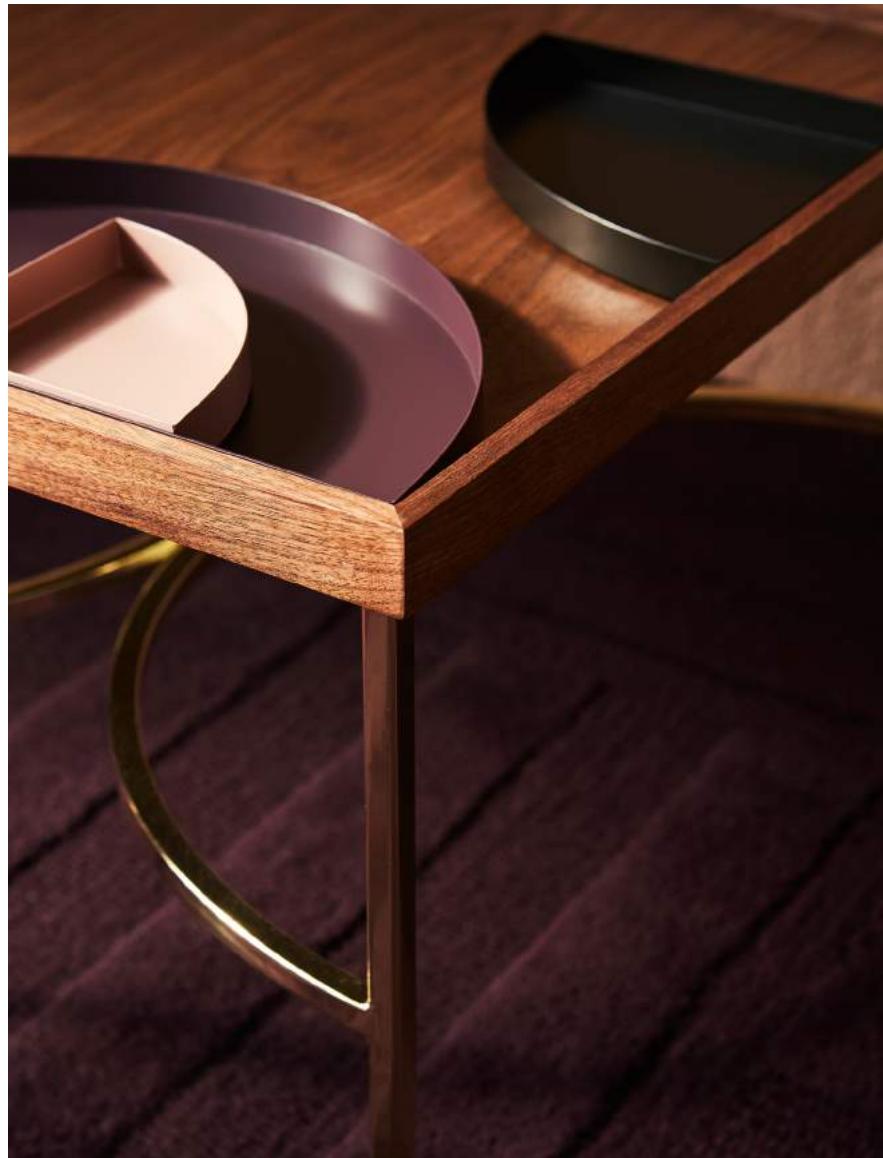

Lucid and in colour

Shiny and reflective surfaces combined with coloured glass will create interesting eye catching looks that even the rainbow would be jealous of.

Unity grows

The many colours, the variation in wood, sizes and shapes of the known Unity trays, just got a bit more exciting. With elegant and light legs this large size tray presents a new option with Unity and still gives you the opportunity to design the details using the small metal trays inside.

Delicate simplicity

There are many ways to play with effects that accentuate designs around the home. A great source of natural light creates a bit of drama for our Motus baskets and the elegant Grasil candleholder. AYTM also provides beautiful tapered candles in four colours to add to the great effects.

Becoming an icon

It is not always easy to determine what makes a design become an icon, but it seems the Curva magazine holder has accomplished just that.

The shape and material are what we believe makes this an icon that now comes in three distinct colours - gold, black & silver.

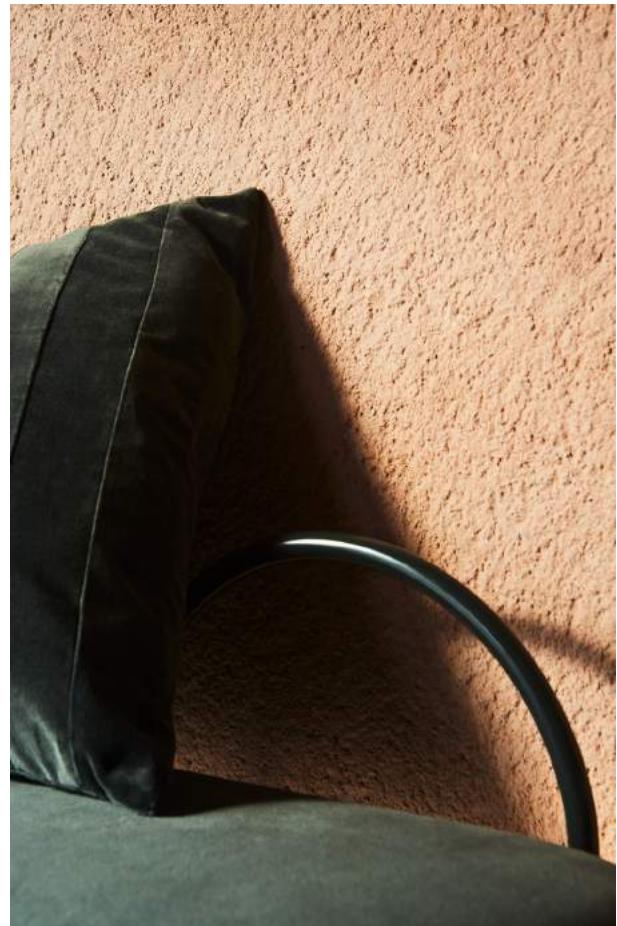

Varia – for artistic expressions

A basic round shape, simple striped pattern and matching colours meet in the most interesting way possible when it comes to the Varia vases. The result being sculptural vases that look stunning with or without flowers or plants.

Pleasantly seated

An exquisite shape, vibrant colours and impeccable quality – that is what AYTM is all about, and the Angui bench embodies all of that. It is the perfect attention grabbing piece of furniture that will catch the eye of anyone approaching. It is simplistic yet interesting and the colour variations means that we all can find our personal favourite.

SANATI CUSHION - P92

The softest touch – in an array of colours

*Velvet brings something very special to a home's décor.
The luxurious softness of this quality is distinct and
elegant and the Sanati colours gives you endless
possibilities. These cushions can be both the foundation
or the colour splash you need.*

ANGUITABLE - P.97

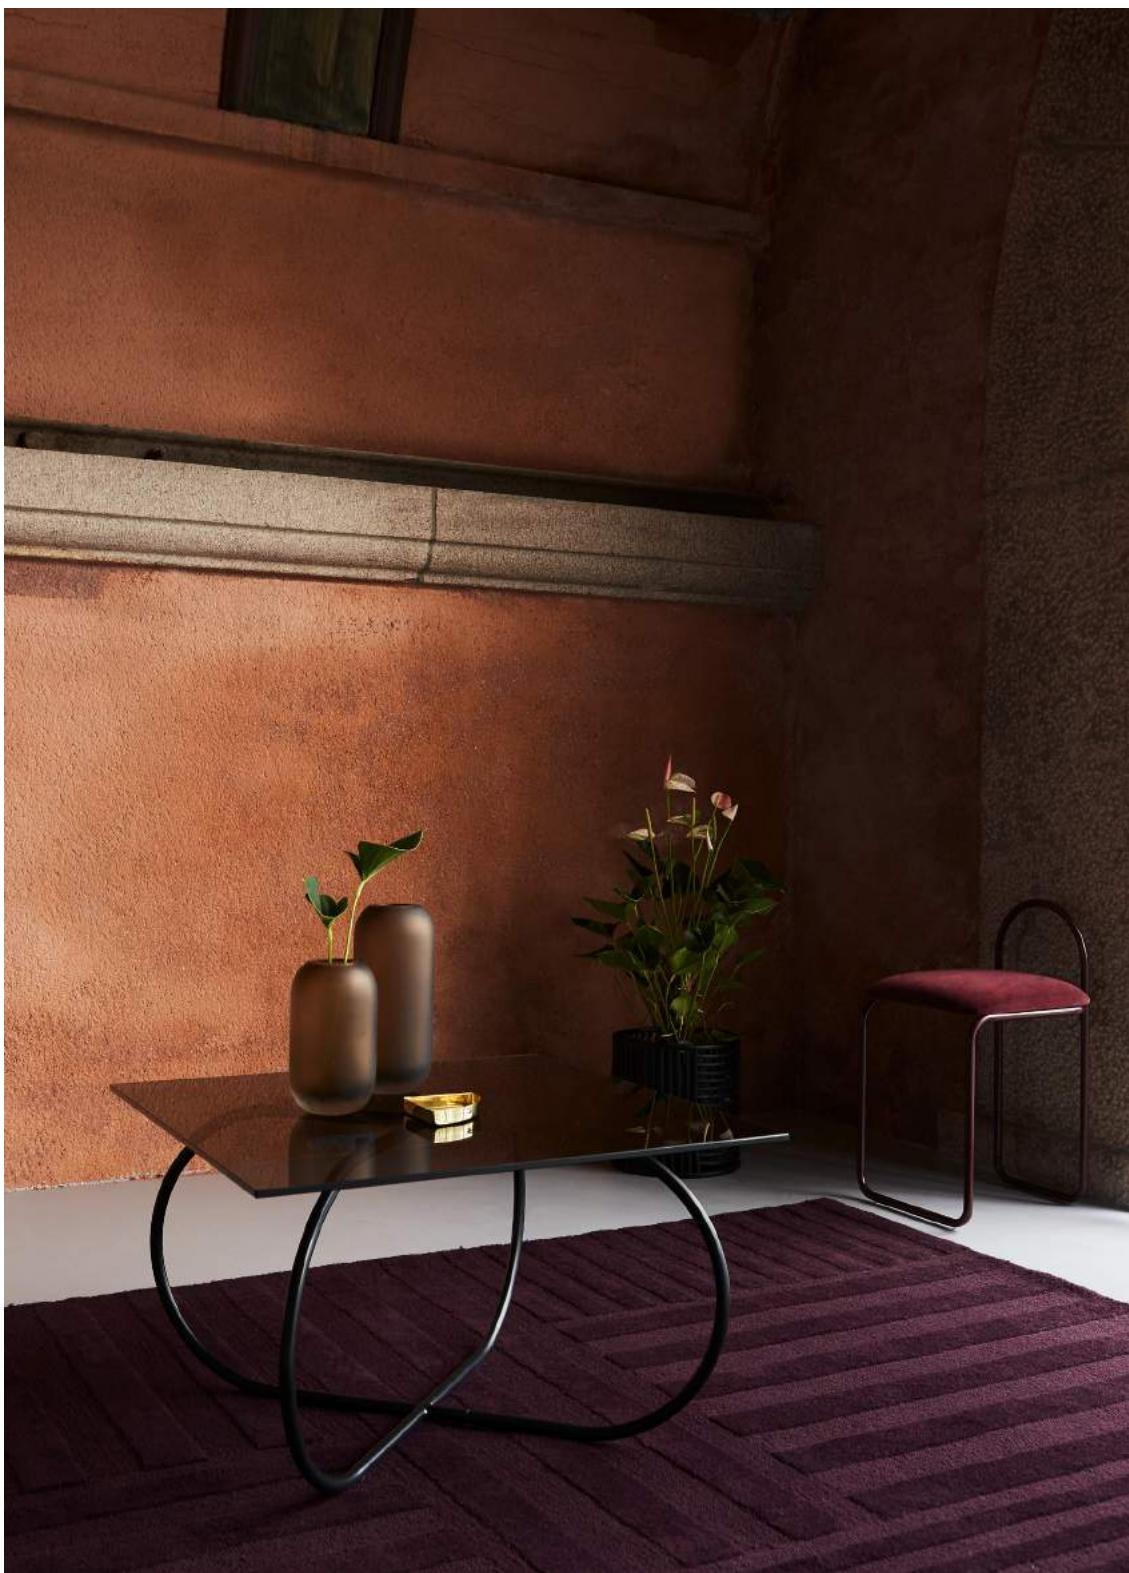

Table top delights

An elegant bowl can create a lovely centerpiece for any table. We have designed a wide selection of bowls that will adorn a table and still be great for serving food. Be sure to discover all the bowls from AYTM.

STILLA BOWL - P.88

SPECULUM TABLE - P.II4

Reflections of you

What you decide to place in your home are all pieces that reflect who you are as a person, what makes you happy and what makes you feel at home. It is our great desire to provide you with these pieces, that will make you smile, feel at home and be comfortable.

The Speculum tables are a great way to reflect your personal style and taste.

Impactful design

Creating designs that truly stand out is a big part of AYTM's DNA. Being both brave and bold in interior design is a trend we see every day as we follow many of you on social media and see how wonderful you all are at displaying your personal style and creating truly unique spaces simply by combining things you love.

STILLA RUG - P.I20

Same unique shape – endless possibilities

The Stilla shape has been with us since the very beginning. Stilla means drop in Latin and it is a shape that you meet in a wide variety of AYTM designs. From rugs to tables to clocks – the many materials and mixes gives you something extra for the home.

FRUSTUM CANDLE HOLDER - P67

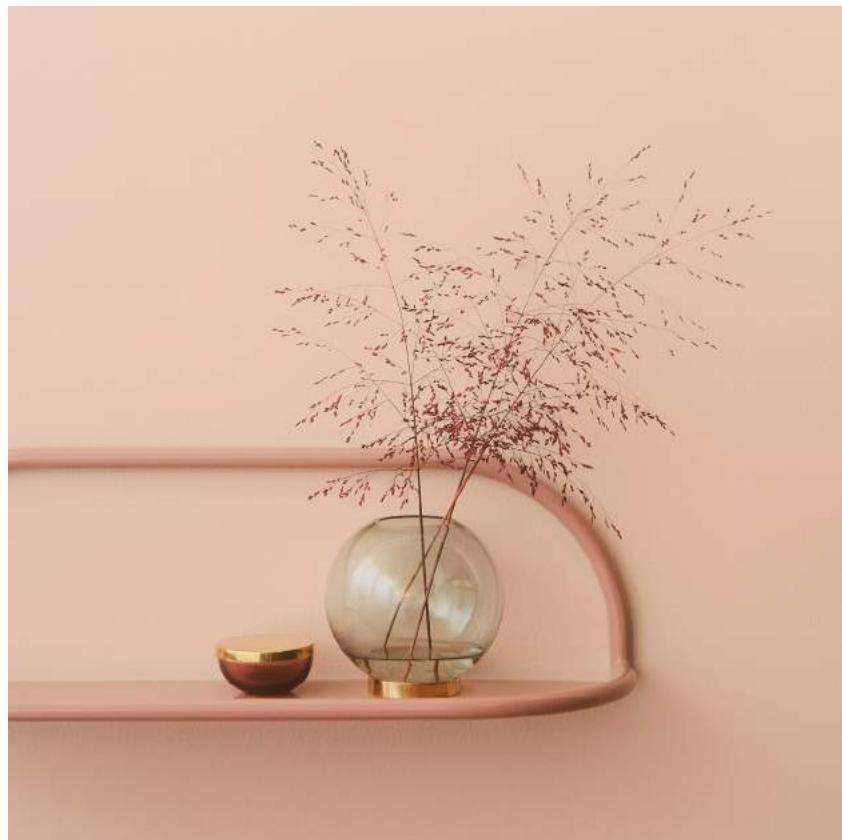

Not just a rock

*We are lucky to get to discover some of
nature's great and beautiful materials.*

*Working with marble, the most simple
shapes turn out in the most interesting way
– showing the true brilliance of the material.*

*It also means that not two Frustrum
candleholders are alike.*

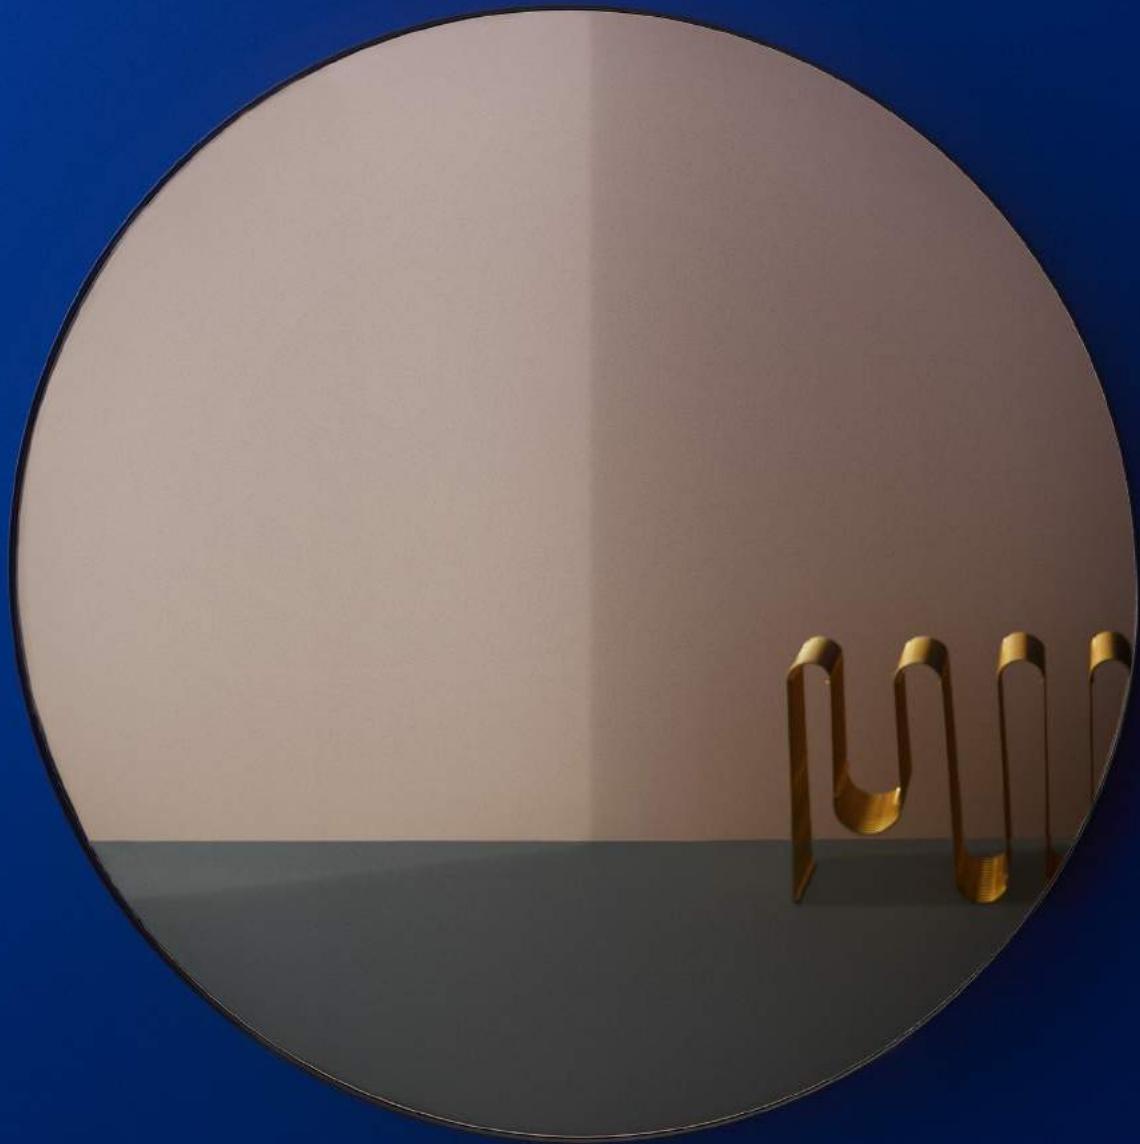

Soft touches for spring

Soft and gentle touches are not just achieved with cushions and textiles. An Angui shelf and light flowers in complementary tones will do the same. The tinted glass of a Circum mirror also softens the look of everything it reflects.

CIRCUM MIRROR - P.II6

Local location

As a company based in Aarhus, Denmark's second largest city, we try to support our local community by selecting locations in our city. This season we found a hidden gem in shape of an old steam pump station, that has been un-used for 80 years. The city decided to clear the space and rent it out to Njord – a Gin distillery and a one-to-watch company when it comes to innovation, spirits and Nordic cuisine.

Learn more on www.njordgin.com.

MOTUM CUSHION - P.95

Straight lines

Adding cushions to a chair or sofa is often to soften the look and make it more comfortable. With the Motum leather cushions you still get great comfort, but you also include a very cool and graphic look.

Built to last

Creating a space that makes you feel at home, shows your personality and fulfills all the practical needs of everyday life might be a bit of a challenge, but one design that might help is the Omni shelf. The spacious shelves are great for storage, but also for displaying decorative pieces. Omni comes in two heights and sections can be added so it suits the room you wish to place it in. Omni has a unique design feature in its rounded edges that makes it elegant to look at whichever way you choose to use it.

Making an entrance are the two new additions to the Angui collection, and they will make a beautiful addition to any entrance, hall or even bedroom you can imagine. The elegant oval shape of the frame is solidly placed on a marble base. Both the mirror and the clothes rack have a small shelf for all those little things you need a place for.
