LEGENDA - KEY

The background of the entire page is a dark, textured surface. It features faint, light-colored chalk-like drawings of various geometric shapes, including circles, lines, and abstract patterns. In the upper left, there are some faint, thin white lines that look like technical or architectural sketches. The overall aesthetic is modern and artistic.

omada[®]
MADE IN ITALY

**TABLEWARE AND STORAGE
TO THE HEART OF THE PEOPLE**

OMADA E'

OMADA® trae ispirazione dalla visione di stoviglie, bicchieri e contenitori per alimenti di qualità **durevole**, utilizzando **materiali ecosostenibili** per offrire un'esperienza, non solo un oggetto per la tavola o la cucina.

Ogni articolo è progettato, sviluppato, prodotto e confezionato nel nostro stabilimento in **Italia**.

OMADA® utilizza materiali innovativi e **riciclabili**, tra cui quelli **riciclati post-consumo** e **biocompositi** da fonti rinnovabili.

OMADA IS

OMADA® is inspired by the vision of **durable** premium tableware, drinkware and food storages using **eco-sustainable materials** to have a fine experience, not only an object for the table or the kitchen.

Every product is designed, developed, manufactured and packaged in our own factory in **Italy**.

OMADA® uses **recyclable** and innovative materials, including **Post Consumer Recycled** ones and **biocomposite** from renewable sources.

LA FABBRICA CREATIVA

Valori orientati al futuro

Dal concept, passando per la progettazione fino all'oggetto finale, al suo confezionamento e alla spedizione in tutto il mondo: gli articoli OMADA® sono interamente realizzati in Italia nello stabilimento di Castelfidardo.

Una "fabbrica creativa" che da sempre applica il proprio know-how nello studio delle **proprietà dei materiali** e delle tecniche finalizzate a soluzioni durevoli per l'uso quotidiano.

THE CREATIVE FACTORY

Future-oriented values

From the concept, through the design up to the final item, to its packaging and shipment all over the world: OMADA® products are entirely manufactured in Italy in the Castelfidardo plant.

A "creative factory" that has always applied its know-how in the study of the **properties of materials** and of the techniques focused on durable solutions for everyday use.

MISSION

Scoprire il valore del tempo, da vivere e da dedicare

Attraverso l'impiego di **materiali riciclabili** e **processi industriali** sempre più **sostenibili**, OMADA® progetta e realizza articoli per la tavola e la cucina che semplificano la vita delle persone per aiutarle a **scoprire il valore del tempo**, da vivere e da dedicare.

Le soluzioni OMADA® sono caratterizzate da qualità ed elevate prestazioni, che le rendono resistenti nel tempo e quindi funzionali all'uso quotidiano.

VISION

Innovare nel rispetto delle persone e dell'ambiente

OMADA® vuole continuare a innovare attraverso soluzioni sviluppate nel **rispetto delle persone e dell'ambiente** in cui vivono.

MISSION

Discovering the value of time, to live and dedicate

Through the use of **recyclable materials** and increasingly **sustainable industrial processes**, OMADA® designs and manufactures table and kitchenware that simplify people's lives to help them **discover the value of time**, to live and to dedicate.

OMADA® solutions are characterized by quality and high performance, which make them resistant over time and therefore functional for daily use.

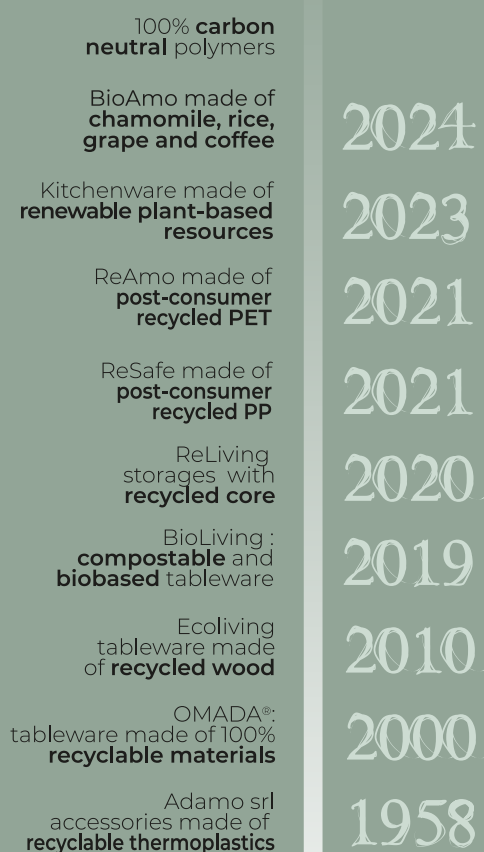

VISION

Innovating respecting people and the environment

OMADA® wants to continue to innovate through solutions developed with **respect for people and the environment** in which they live.

FULLY SUSTAINABLE DNA

OUR COMMITMENT TO
PRESERVE THE
ENVIRONMENT

BOX PATENTED OPENING SYSTEM

PULL BOX SYSTEM

1 HAND OPENING

I contenitori Pull Box hanno un sistema di **apertura/chiusura a una mano brevettato**: con un clic si aprono e con un altro si chiudono ermeticamente agendo sulla pratica leva con asola.

Al momento della chiusura, il coperchio va inserito con la leva sollevata, in modo da far fuoriuscire l'aria presente all'interno del contenitore.

Pull Box è **ermetico** e, nell'utilizzo in **microonde**, la **valvola** presente sotto alla leva di apertura permette al vapore di fuoriuscire anche con il coperchio a copertura del contenitore.

*Pull Box containers have a 1 hand **patented opening/closing system** with one click they open and with another they close tightly by acting on the lever with the slot.*

When closing, the lid must be inserted with the lever raised, in order to allow the air present inside the container to escape.

*Pull Box is **leak proof** and, when used in **microwave**, the **valve** under the opening lever allows the steam to escape, even with the container covered by the lid.*

Bio Amo

A new generation of tableware with bio DNA

[CATALOGO - CATALOGUE](#)

[VIDEO - VIDEO](#)

BIOAMO È *BIOAMO IS*

BIOCOMPOSITE

Una nuova generazione di stoviglie dal DNA bio, attenta all'aspetto ambientale ma non meno a quello sociale e che **riduce la percentuale di plastica a vantaggio delle fibre vegetali**, alle quali viene data una seconda vita.

Inoltre, l'innovativo materiale biocomposito dona al prodotto un aspetto naturale senza perdita di **prestazioni ed effetto estetico**. BioAMO origina dal giusto equilibrio tra materiale plastico e fibra vegetale al fine di ottenere una riduzione moderata di **CO2**, conservando al contempo le sue caratteristiche di **riciclabilità**.

*A new generation of tableware with bio DNA, that pays attention not only to the environmental aspect but also to the social one and **reduces the percentage of plastic to the advantage of plant fibres** which are given a second life.*

*Moreover, its innovative biocomposite material gives the product a natural connotation without losing the **performances and the aesthetic effect**. BioAMO originates from the right balance between plastic material and plant fiber in order to obtain a moderate reduction in **CO2**, while maintaining its **recyclability** features.*

NO FOOD CONFLICT

BioAMO utilizza solo sottoprodotti di lavorazione, quindi **non priva il mercato alimentare delle sue risorse**, al contrario ne permette un utilizzo alternativo.

*BioAMO uses only by-products of food processing, therefore **it does not deprive the food market of its resources**, but rather it allows an alternative use of them.*

BIOAMO MADE OF CHAMOMILE

La camomilla fa parte della nostra **quotidianità italiana** per le sue proprietà e il suo profumo inconfondibile, ma questa pianta erbacea così benefica è utile anche per le sue componenti di scarto, che non possono essere destinate agli usi per infusi o cosmetici, ma che, recuperate e combinate con materiali termoplastici, contribuiscono a **ridurre l'utilizzo di plastica vergine**.

*Chamomile is part of our **Italian daily life** due to its properties and its unique scent, but this beneficial herbaceous plant is also useful for its waste components, which cannot be allocated to the uses for infusions or cosmetics, but which, recovered and combined with thermoplastic materials, contribute to **reducing the use of virgin plastic**.*

BIOAMO MADE OF COFFEE

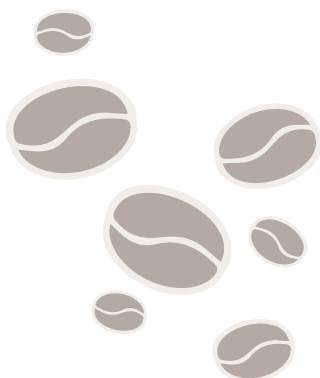

Il pergamino è la pellicola rigida e spessa che protegge i chicchi di caffè e che viene eliminata mediante essiccazione prima della tostatura.

OMADA® sfrutta questa parte meno nobile del chicco per **ridurre l'apporto di plastica vergine** e conferire ai prodotti BioAMO una connotazione ancora più sostenibile e naturale senza perdere le **prestazioni tecniche e l'effetto estetico**.

The parchment is the rigid and thick film that protects the coffee beans and which is eliminated by drying before roasting.

OMADA® exploits this less noble part of the bean to **reduce the intake of virgin plastic** and give the BioAMO products an even more sustainable and natural connotation without losing the **technical performances and the aesthetic effect**.

BIOAMO MADE OF RICE

Questa materia prima innovativa nasce dalla **lolla di riso**.

Si tratta di un materiale **biocomposito**, dove la fibra vegetale (in questo caso la pellicola che avvolge il chicco di riso) è indice di ottime prestazioni e abbraccia un **progetto di economia circolare**.

*This innovative raw material comes from **rice husk**.*

*It is a **biocomposite** material, where the vegetable fiber (in this case the film that wraps the rice grain) means excellent performance and embraces a circular economy project.*

BIOAMO MADE OF GRAPE

La nostra **tradizione italiana** diventa ancora più preziosa quando ci permette di innovare **salvaguardando le colture e le persone**.

La storia delle vinacce utilizzate per BioAMO inizia nelle cantine che trasformano il raccolto delle viti in vino e separano i residui di questo processo. La vinaccia è la buccia dell'uva comprensiva dei vinaccioli.

*Our **Italian tradition** becomes even more precious when it allows us to innovate while **safeguarding crops and people**.*

The history of the pomace used for BioAMO begins in wineries which transform the harvest of the vines into wine and separate the residues of this process. The pomace is the skin of the grape including the seeds.

PET from 100% POST CONSUMER RECYCLED SOURCES

[CATALOGO - CATALOGUE](#)

[VIDEO - VIDEO](#)

REAMO È *REAMO IS*

POST CONSUMER RECYCLED

La materia prima di ReAMO è realizzata mediante il recupero di **imballaggi in plastica post consumo**, nel caso specifico le **bottiglie in PET**. A fine vita, il prodotto può essere interamente riciclato ed è pertanto 100% eco-friendly.

L' EFSA (Autorità Europea per la Sicurezza Alimentare) certifica la sicurezza del PET riciclato post-consumo per uso alimentare.

ReAMO raw material is produced with the recovery of **post-consumption plastic packaging** and, in this specific case, **PET bottles**. At the end of its life the product can be completely recycled, therefore it is 100% eco-friendly.

EFSA (European Food Safety Authority) certifies the safety of post-consumption recycled PET for food use.

MY ONLY... STYLE

ON THE GO

My Only è la collezione completa per l'On the Go che, con la sua gamma cromatica, si adatta perfettamente a ogni stile e a ogni personalità.

Il **design ergonomico** della bottiglia infrangibile, il mug **termico con doppia parete** e i lunch box con sistema di **apertura brevettato** rappresentano una soluzione per ogni esigenza, adattandosi a ogni passione.

My Only is the comprehensive collection for On the Go that, with its color range, fits perfectly for every style and personality.

*The **ergonomic design** of the unbreakable bottle, the **double-walled thermal** mug and the lunch boxes with **patented opening system** represent a solution for every need, adapting to every passion.*

BRICK STORE

BUILD YOUR IDEAL SPACE

[CATALOGO - CATALOGUE](#)

[VIDEO - VIDEO](#)

BRICKSTORE

MODULAR

Brickstore rappresenta l'elemento **versatile**, funzionale alla **conservazione** e all'**ordine**, che non trascurava tuttavia l'aspetto ludico.

Gestire ordinatamente gli spazi, conservare alimenti secchi alla pari di oggetti di uso quotidiano, avere tutto a vista e a portata di mano significa risparmiare tempo ed energie.

Tutti i materiali utilizzati per la realizzazione dell'intera collezione sono **100% riciclabili** e idonei al contatto alimentare, perciò privi di bisfenoli e melamina.

*Brickstore represents the **versatile** element, functional to **conservation** and **order**, which does not however neglect the playful aspect.*

Managing spaces neatly, storing dry food on a par with everyday objects, having everything in sight and within reach means saving time and energy.

*All the materials used for the entire collection are **100% recyclable** and suitable for food contact, therefore free of bisphenols and melamine.*

EAT

SOLID & VITAMINIC PERSONALITY

EAT POP

SOLID & VITAMINIC

Eat Pop è la collezione di articoli **robusti** e pratici per l'uso di tutti i giorni, che si adatta a ogni personalità grazie alla sua ampia **tavolozza di colori vitaminici**.

Ciotole e piatti in particolare sono **infrangibili**, nonché idonei sia al lavaggio in lavastoviglie che all'uso in **microonde** e in **congelatore** per offrire una soluzione a ogni esigenza sia in casa che fuori.

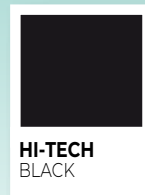

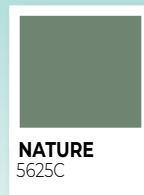

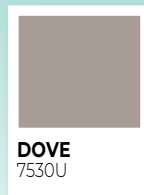

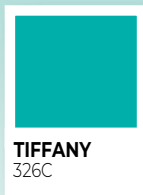

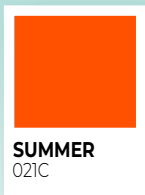

*Eat Pop is the line of **solid** and functional items for the everyday use, that fit each personality thanks to its **wide vitaminic colour palette**.*

*Bowls and plates, particularly, are **unbreakable**, dishwasher, **microwable** and **freezer safe**, in order to grant a solution for any kind of need in and outdoor.*

SANALIVING IS

ANTIBACTERIAL PROTECTION

Articoli per la tavola e contenitori per alimenti **sicuri** con **protezione antibatterica**.

Quando i batteri entrano in contatto con la superficie dei prodotti Sanaliving, la tecnologia Microban® SilverShield® devitalizza le loro funzioni biologiche arrestandone la proliferazione.

Questa protezione viene applicata durante il processo produttivo ed è **integrata** alla materia plastica, perciò non si disperde con i lavaggi e resta **efficace per l'intera vita** del prodotto.

Safe tableware and food containers with **antibacterial protection**.

When bacteria come into contact with the Sanaliving product surface, the Microban® SilverShield® technology devitalizes their biological functions thus stopping their proliferation.

*This protection is applied during the manufacturing process and is **integrated** into the plastic material, therefore it does not disperse with washing and **remains effective for the entire life cycle** of the product.*

the NECESSARY

EVERGREEN DESIGN

CATALOGO - CATALOGUE

THE NECESSARY IS

EVERGREEN OBJECTS

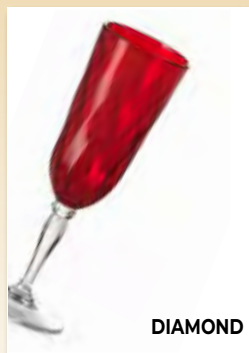

The Necessary racchiude articoli **evergreen** per la tavola e la cucina, realizzati in alcuni casi in materiale **acrilico di alta qualità** per esaltare la brillantezza dell'oggetto e in altri in **legno** per valorizzare l'aspetto naturale di prodotti dal design funzionale per l'uso di tutti i giorni.

*The Necessary includes **evergreen** tableware and kitchenware items, made of **high-quality acrylic** to highlight the brightness of the object in some cases and of **wood** in others in order to enhance the natural look of the products with a functional and everyday design.*

Ecoliving è realizzata con una speciale materia prima che combina le fibre naturali del legno, ricavate dalla sua prima lavorazione, ai polimeri per creare articoli per la tavola e la cucina funzionali ma dall'aspetto naturale.

Ecoliving is made with a special raw material that matches natural wood fibres, obtained from its first processing, with polymers to create functional table and kitchenware with a natural look.
