Fresh ideas

Welcome to the Stelton 2022 catalogue with new inspiration for your home.

When stamping your mark on a space and ensuring your interior stays unique it is all in the detail. We know, and every day we collaborate with international architects and designers, who care about details and are dedicated to getting function and finishes right in the products they create for you.

What all our products, whether new designs or iconic pieces have in common, is their aesthetic longevity and that they integrate perfectly in any home.

Discover our collections and new serveware, embracing lamps and gourmet kitchen tools that combine form and function. Our ambition is to create interesting design that makes everyday life beautiful and captures the hearts of design lovers.

A Stelton state of mind.

Let it Bloom!

Bloom is the name of the stylish new watering can from Stelton. A modern version made from powder-coated stainless steel with a matte finish in a gorgeous deep dark green for your urban jungle.

When designing the new Bloom watering can Böttcher & Kayser aimed to create a simple yet original design with no unnecessary details. The timelessness and strength of the cylindrical shapes inspired the German designers to create this modern reinterpretation of the classic watering can.

Böttcher & Kayser is a Berlin-based studio founded by Moritz Böttcher and Nikolaus Kayser in 2007. Moritz Böttcher and Nikolaus Kayser have won numerous design awards for their work in the fields of consumer product, furniture, lighting and interior design.

"We are fascinated by the process that starts with an idea, becomes substance and hopefully results in a long and pleasurable use for its qualities."

– Böttcher & Kayser

Pier LED lamp

With its pleasant light Pier extends the warm evenings on the terrace or balcony.

The Pier LED lamp can be used both indoors and outdoors and is easy to carry in the handle at the top of the lamp. By a simple touch on the button at the base, The Pier LED lamp can be set to three varying light levels depending on the need and the atmosphere you want to create.

Søren Refsgaard graduated from Design Seminariet in Højer, Denmark in 2003. Later the same year, he established his own design studio in Copenhagen. Deeply influenced by Danish design tradition, his work mainly features lighting, furniture and home accessories.

Pier LED lamp is a beautiful tribute to the classic ship's lamps.

Hurricane

Enjoy those summer nights. Create a special ambiance indoors or outdoors with the beautiful Hurricane.

Maria Berntsen graduated in architecture from the Royal Danish Academy of Fine Arts, School of Architecture in Copenhagen. She runs her own design studio in Copenhagen, working with several major Danish and foreign brands. Maria Berntsen's work is based on an intuitive feeling for the nature of the material and the sensuousness of the design.

Colours of nature

Sea, amber and cosy bonfires inspired the new colours of the Lucie hurricane. These beautiful colours and simple shape make Lucie a fine example for modern living.

“I always focus on needs instead of the product, then it’s about finding the right balance between form language, practical function and feasibility in a clear and understandable product.”

– Francis Cayouette

Canadian designer Francis Cayouette trained in Montreal and Paris, and founded Unit10 design in Copenhagen in 1999. His design is characterised by a strong empathy for daily life, with a feel for the industrial and functional aspects of design.

Hoop

Create an inviting table setting with the elegant Hoop series designed by UNIT 10.

Theo

Let the Theo collection stimulate your senses. Take your time. Enjoy a moment of calm with your favourite tea or coffee.

Combining matt stoneware with glaze and bamboo details, the Theo range's natural look will bring Scandinavian simplicity and elegance to your home.

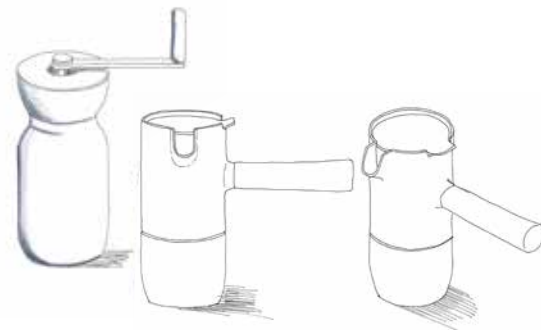

Collar

Collar was created especially for all coffee aficionados.

Debiasi and Sandri founded their own design studio in 2010. Based in Bolzano and Verona they work within various fields of design, ranging from objects to spaces.

The classic Italian stovetop espresso maker, also known as a "moka pot", is the ultimate tool for making a professional, full-bodied brew at home. The Collar collection has a beautiful silhouette with a touch of Scandinavian design aesthetics.

Amphora

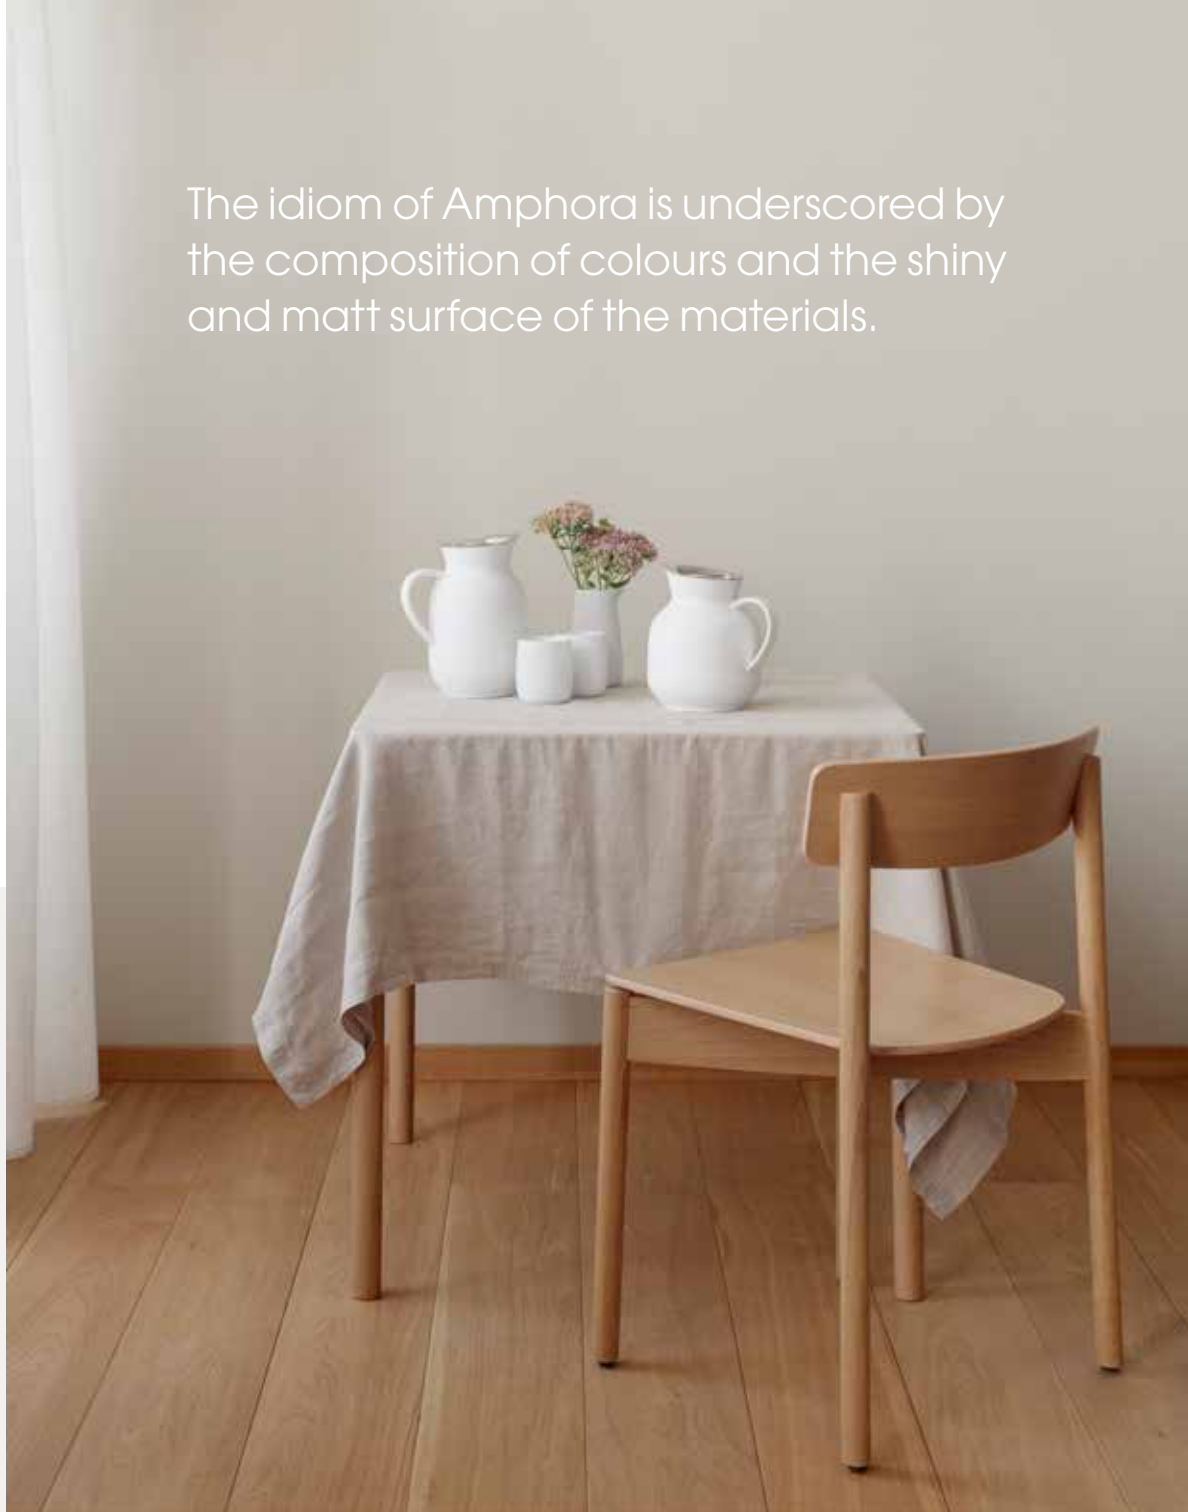

Set the table and have guests for tea or coffee. Our Amphora jugs come in two versions, one for tea and a slightly taller and slimmer one for coffee.

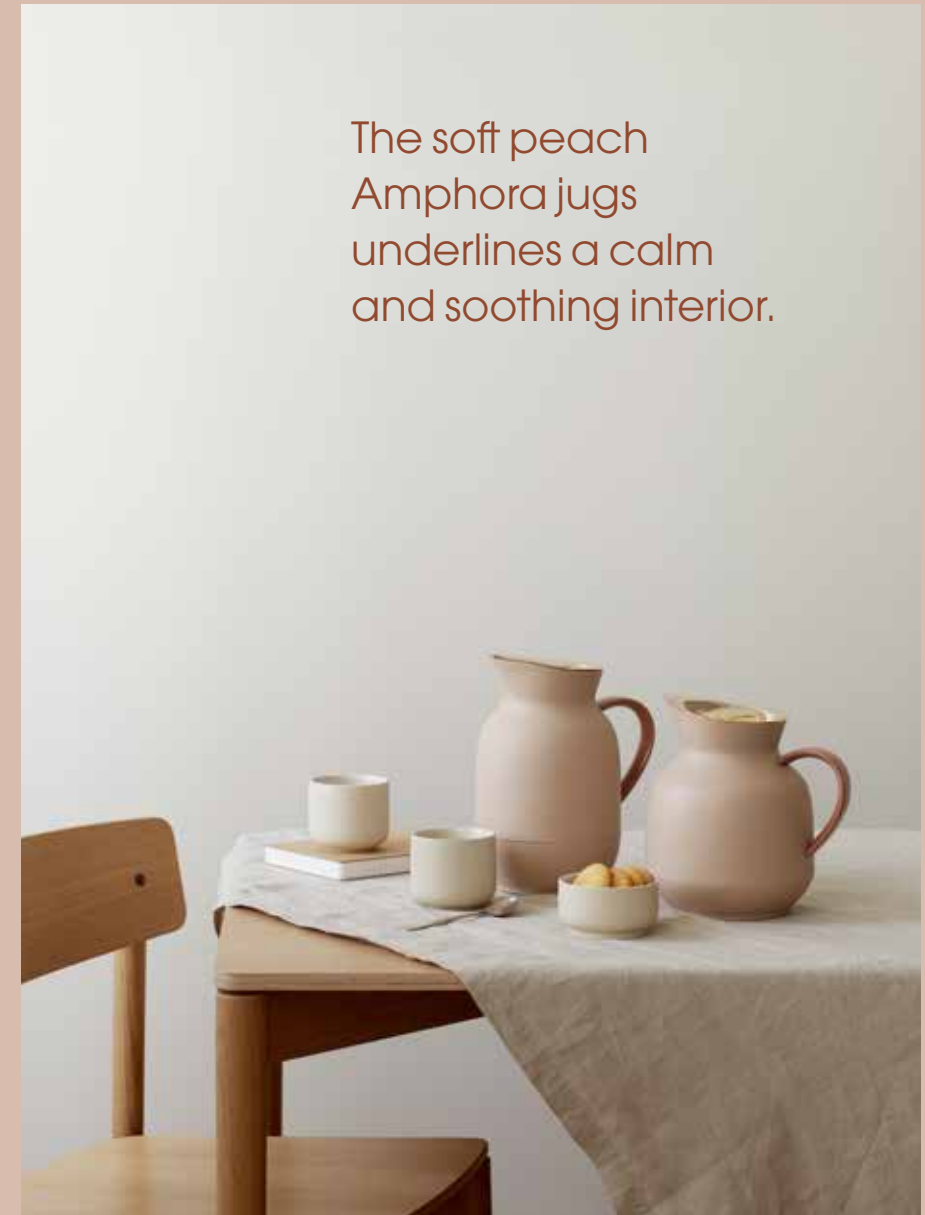

Sebastian Holmbäck studied industrial design at Designskolen, Denmark. From his studio, Sebastian Holmbäck works with product design in the areas of furniture, lighting and interior design, and he has received numerous awards.

Amphora is a classic vacuum jug with a glass insert that will keep coffee or tea hot for hours. The glass insert can be replaced in case of breakage. This provides the vacuum jug with a longer lifespan, making it both money saving and better for the environment.

The idiom of Amphora is underscored by the composition of colours and the shiny and matt surface of the materials.

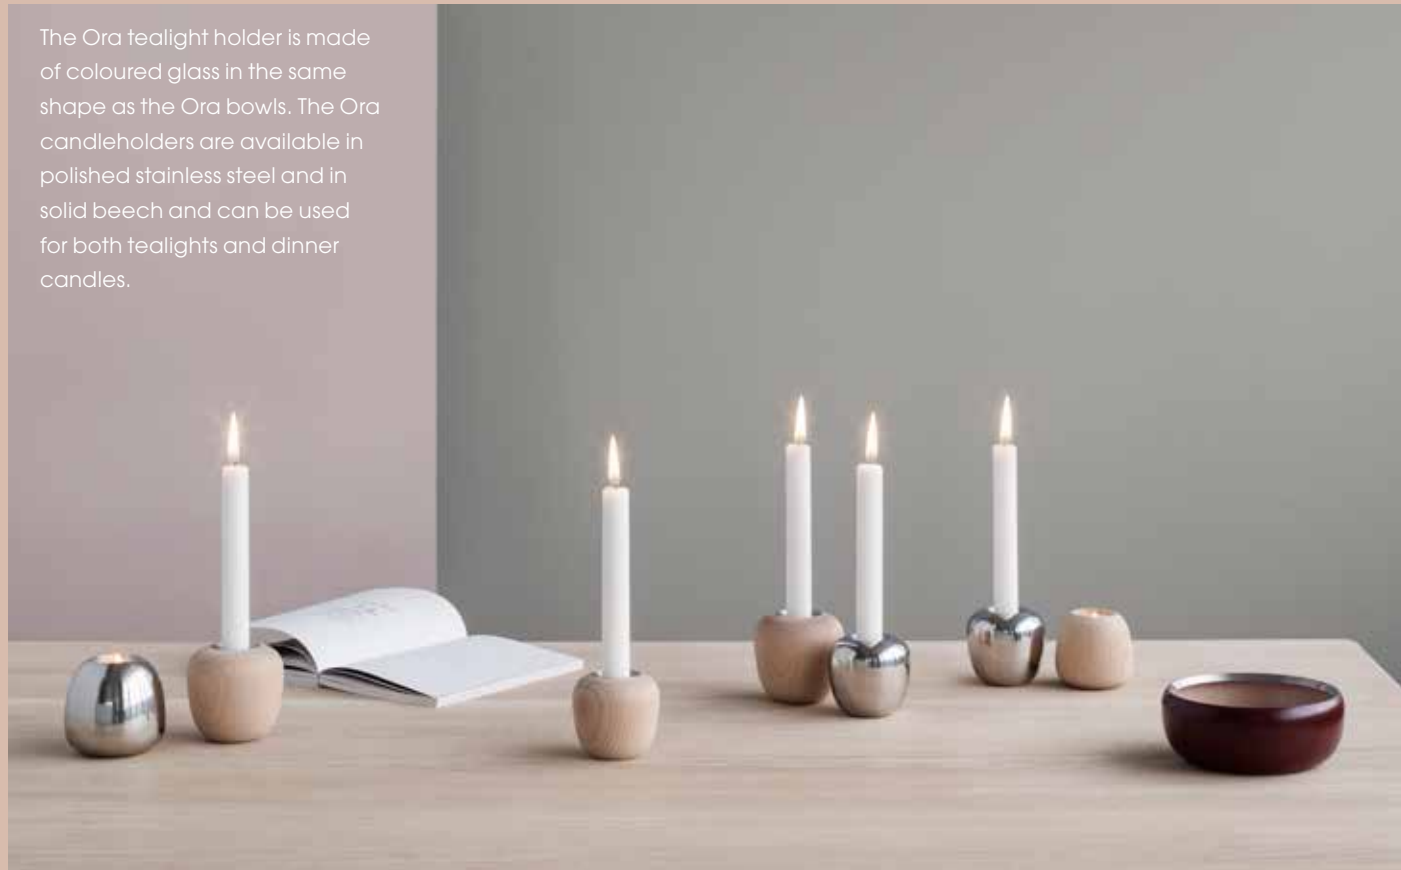

The soft peach Amphora jugs underlines a calm and soothing interior.

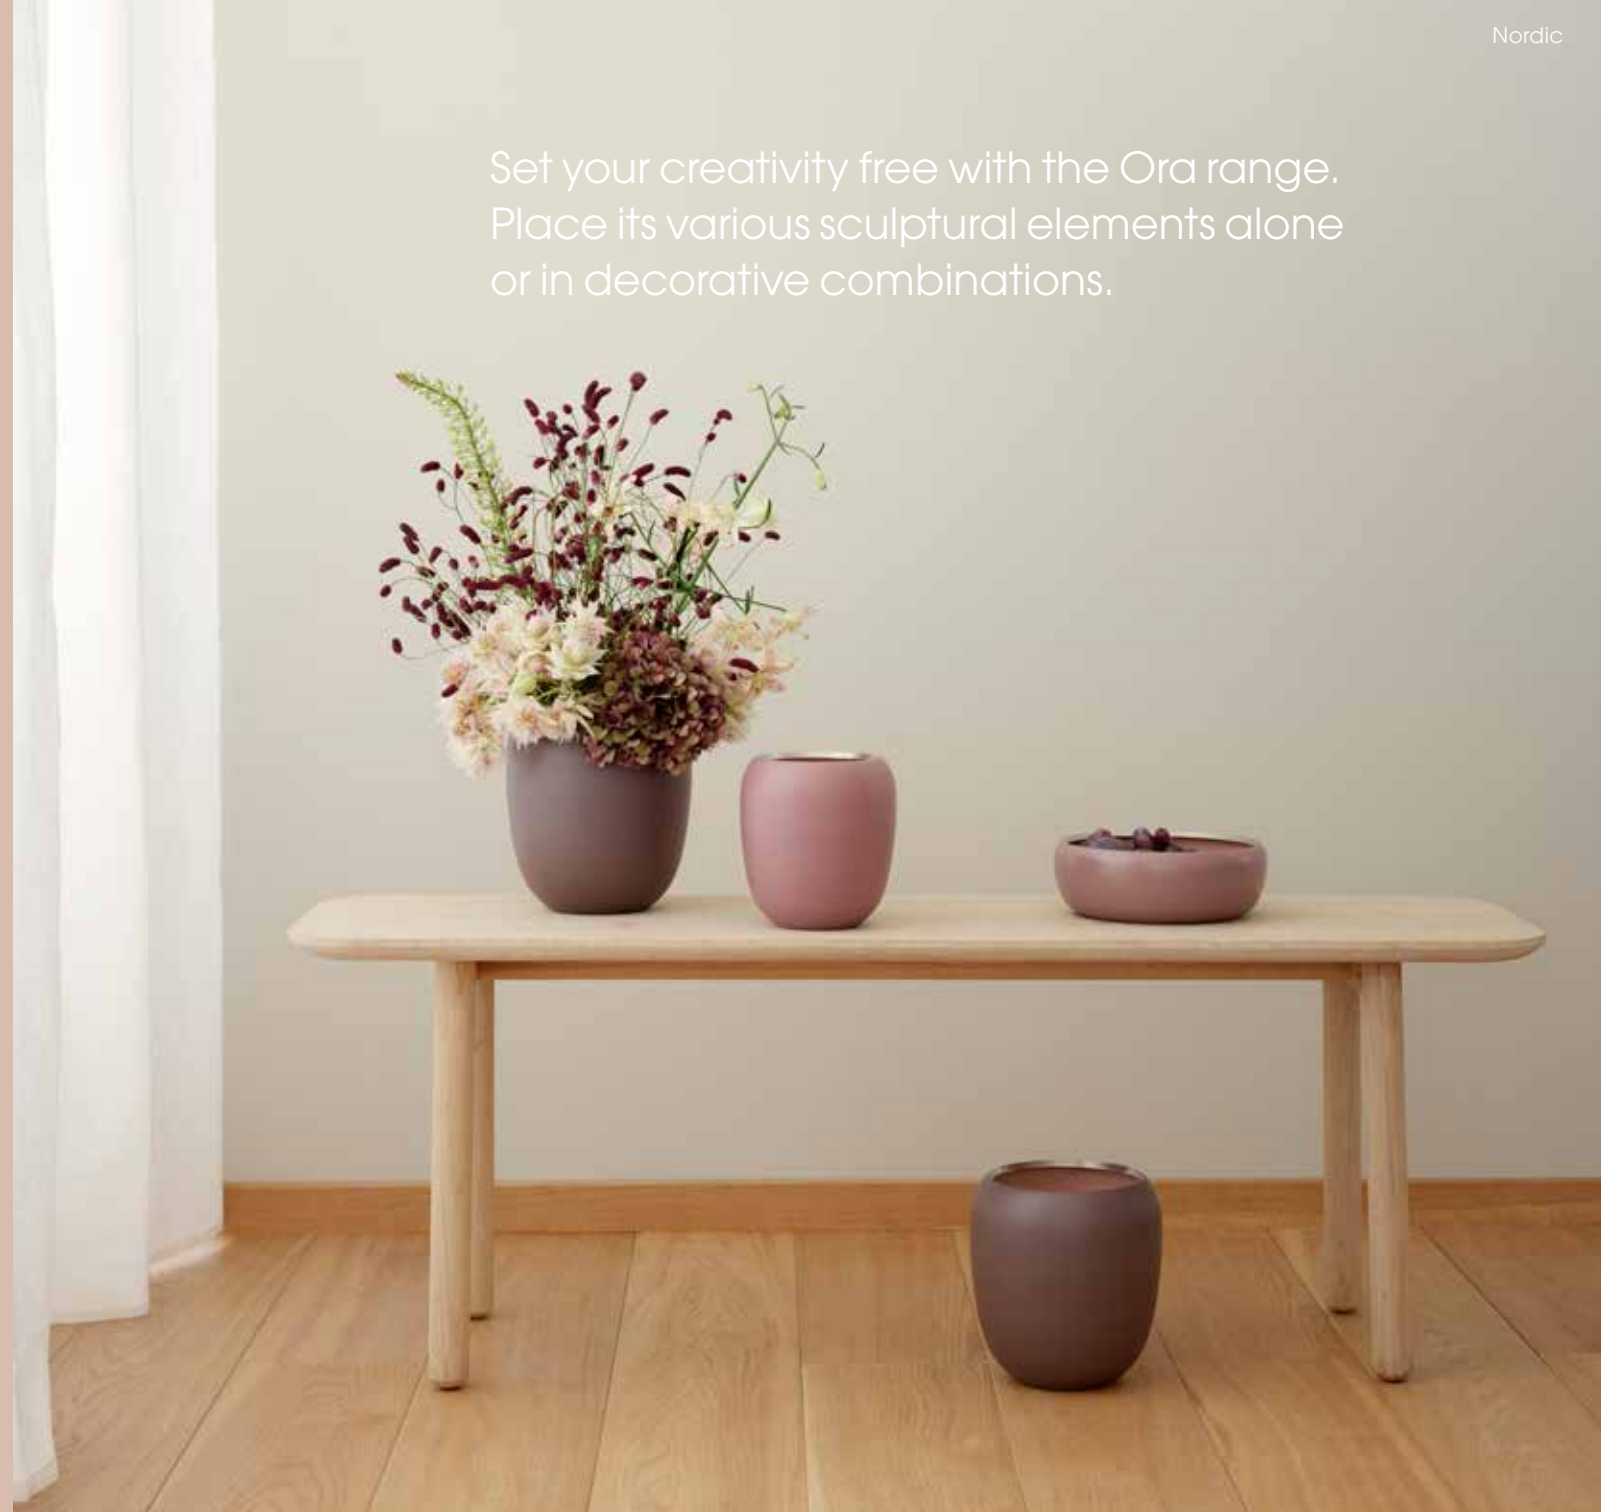

Ora

Soft organic shapes and contrasts between materials result in minimalistic elegance for your home.

The Ora tealight holder is made of coloured glass in the same shape as the Ora bowls. The Ora candleholders are available in polished stainless steel and in solid beech and can be used for both tealights and dinner candles.

Set your creativity free with the Ora range. Place its various sculptural elements alone or in decorative combinations.

Original

The Original watering can is an elegant sculpture when not in use, with a beautiful shape and perfectly crafted details.

Peter Holmblad is a key figure in Stelton's history. Between 1963 and 2004, he transformed Stelton from a production company into a respected design brand. He is also a skilled designer who created the well-known Original watering can and the Original series of breakfast table and bar utensils.

EM ship's lamps

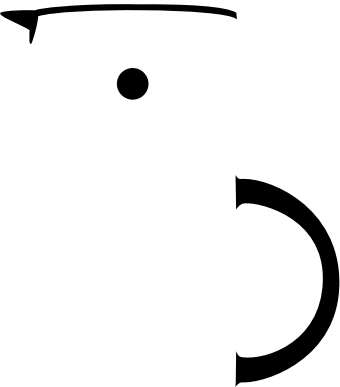

Enjoy the ship's lamps by Erik Magnussen during the long summer, then take them inside when winter comes.

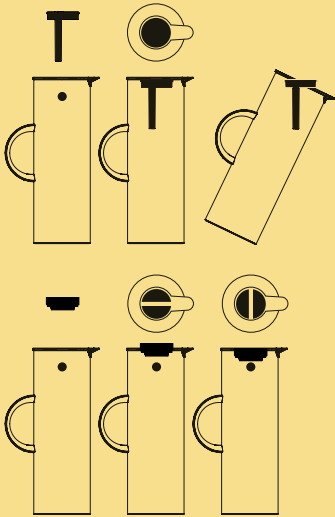

“My way of designing is not an intellectual process. My ideas are borne out of my own needs. I don’t want to complicate things, only to make everyday living a little easier.”

– Erik Magnussen

Erik Magnussen was one of Denmark’s most accomplished designers. Educated as a ceramist at the School of Applied Arts and Design, he graduated in 1960. Magnussen designed all kinds of products: from furniture and lamps to electronic equipment. Erik Magnussen designed the EM77 vacuum jug with its unique rocker stopper back in 1977. It is still as fashionable and iconic today as it ever was, which proves that it represents design at its very best.

EM77

The vacuum jug’s innovative tilting lid enables serving with just one hand. The jug is also delivered with a handy screw cap, which is ideal, if you want to bring the jug outdoors.

EM77 is a classic vacuum jug with a glass insert. All parts can be replaced in case of breakage. This provides the vacuum jug with a longer lifespan, making it both money saving and better for the environment.

Made in Denmark
since 1977

Perfect harmony

The EM77 jug and the bread bag invite you to slow down and enjoy a well-earned break with a great cup of tea or coffee.

Klaus Rath is an Industrial Design graduate from the Aarhus School of Architecture in Denmark. His approach to the design process is practical, with equal interest in the aesthetic and functional aspects. He has designed many award-winning products for Stelton, including the popular Bread Bag.

For life on the move!

Design that makes a difference.
Save resources by bringing your own
cup and bottle. These stainless-steel
To Go Click cups and Keep Cool
bottles can be used again and again.

Choose the colour
that fits your style.

Always bring your
favourite drink in this
light stainless steel flask,
and you will never need
to buy single-use bottles
again!

Keep Cool is a vacuum insulated
stainless steel bottle that stands out
and underlines your style. The prize-
winning double-walled bottle holds
0.6 litres and keeps your drinks chilled
for 16 hours and warm for 8 hours.
Enjoy!

Enjoy your favourite drink at home, at the office or on the go and make any moment special.

To Go Click 0.2 l keeps your drink hot for two hours, or chilled for 4 hours. To Go Click 0.4 l has a vacuum-insulated double wall which keeps your drink hot for 4 hours, or cold for 8 hours.

Take your favourite drinks with you anywhere with Keep Cool and Keep Warm vacuum insulated bottles designed by Debiasi & Sandri. Combine hot and cold refreshments and enjoy freedom and flexibility.

Keep Cool keeps your drink hot for 12 hours or chilled for 24 hours. Keep Warm keeps your drink hot for 24 hours or chilled for 48 hours.

Carrie

Carrie is a new range of vacuum cups and drinking bottles for anyone in need of a break and a hot or cold drink. With its conical, slim shape, Carrie fits most cup holders and can also be popped in a bag. Your new best friend in classic hues.

Carrie thermocup and vacuum drinking bottle keeps your drink hot for 5 hours or chilled for 10 hours.

Pilastro

The Pilastro range designed by Francis Cayouette has a sophisticated aura inspired by the elegant idiom of Art Deco, a merging of form and function.

Cylinda-line

If you appreciate design history and lifelong elegance, Cylinda-line is a series of timeless objects to keep and cherish.

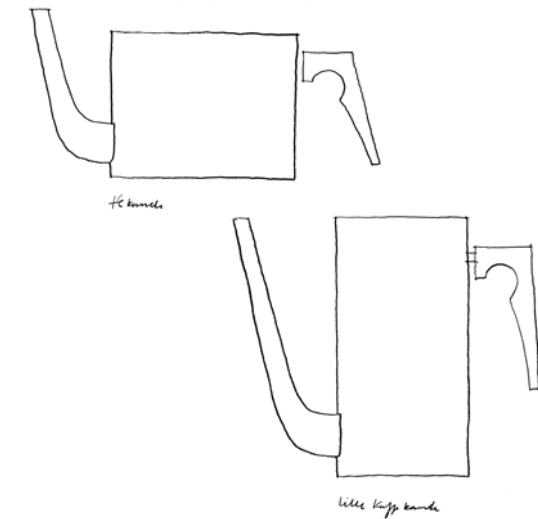

Arne Jacobsen designed Cylinda-line in 1967 as a complete collection in perfect harmony. His work was inspired by the Bauhaus movement and he played an important role in Danish modernism. He was a master of details and his persistence in the development process resulted in a unique set of tableware, in steel with a prominent Bakelite handle. His minimalistic design is still synonymous with sophistication.

“The primary factor is proportions. Next come the materials – not mixing the wrong materials. And out of this comes, of course, the colour – and seen all together – the overall impression.”

– Arne Jacobsen, 1968

One of Arne Jacobsen's very first Cylinda-line sketches was the AJ-teapot. After the sketches were completed, prototype models were made out of wood and it was up to the workshop to determine how to produce the design in stainless steel. The project took three years to complete. The handle was subsequently changed, however the rest of the design remains true to Jacobsen's original sketches.

Enjoy the details and the finish of the elegant Cylinda-line bar series. Together with the Original bar tools this iconic line-up is ready to thrill your guests.

Sixtus designed by Søren Refsgaard will satisfy any grill enthusiast. Its sleek, classic design will be a pleasure to the eye at any table, whenever and wherever it is used.

Trigono is designed by the Danish architect Simon Kalmer, whose vision was to create a simple design with a clear, geometric idiom. The excellent balance and triangular handle provide a safe, comfortable grip.

Stelton’s Norstaal is a range of steel cutlery for the dining table. Sophisticated cutlery and serving utensils make the dining experience even more elegant and pleasurable.

Maya 60 Years

The outstanding Maya cutlery range celebrates its 60th anniversary. Norwegian designer Tias Eckhoff created the iconic design which is just as popular today as when it was launched in 1962.

Dress your table with style. Arne Jacobsen designed the sleek salt and pepper set and Peter Holmblad the minimalistic napkin holder. A perfect match.

Emma

Introduce that Scandinavian hygge (cosy) atmosphere into your home with the Emma series.

Mix and match with new and old favourites. With a range of tone-in-tone colours, you can express your personal style.

Sebastian Holmbäck and Ulrik Nordentoft met at the Danish Design School. HolmbäckNordentoft's design philosophy is to create timeless design that evokes emotions and excitement and has a tangible meaningfulness and purpose that generate affection. The design duo is always guided by aesthetics and creates designs that age beautifully. The Emma collection has won several design awards.

Treat yourself, your friends and family to breakfast or brunch with Emma.

“Together with our talented and carefully selected designers, our ambition is to create timeless and functional designs that make everyday life a bit more beautiful.”

All Stelton designs are true to our minimalist Scandinavian design philosophy. We live and believe in 'less is more'. This design philosophy is based on four keywords: timelessness, simplicity, functionality and innovation. This catalogue explores our design families, allowing you to learn about the detail which makes each family special.

Cylinda-line and the AJ collection by Arne Jacobsen is the heart of Stelton's design DNA. Cylindrical design has become a timeless classic. Iconic and minimalistic.

Foster The range brings together simple sculptural form with a soft geometry, to create exceptionally crafted tableware for a wide range of settings.

Explore brings an organic touch to the minimalist design style. Playful and curved with an edge.

Classic features designs inspired by the cylindrical shape like the EM77 vacuum jug by Erik Magnussen. Elegant and always functional.

I:cons features innovative personal accessories for life on the go. Aesthetic and functional.

Nordic is inspired by the Nordic landscape and design values. It represents the Scandinavian way of living with a 'less is more' attitude. Minimalistic and artistic.

Norstaal includes steel cutlery and serving utensils. Sleek and elegant.

Danish Modern 2.0 is inspired by the golden age of Danish design in the 50's and 60's. Every item is a new interpretation of this iconic era. Innovative with clean lines.

Stelton x Moomin

Tove Jansson was a multi-talented artist who is mostly remembered as the creator of the Moomins. Her stories about the peace-loving and tolerant Moomins is a global phenomenon and has made her one of the most successfull children’s authors of all times.
